Patent and Trademark Office					

Application/Control Number: 10/669,215

Art Unit: 1712

The status of the parent application must be updated at the beginning of the specification.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-42, drawn to a blend of polyester and PC, classified in class 525, ١. subclass 439.
- 11. Claims 43-45, drawn to polyester, classified in class 528, subclass 181.

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the polyester of claim 1 does not require a particular viscosity or cyclohexanedimethanol. The subcombination has a separate utility such as a fiber or molding resin without inclusion of PC.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to B.J. Boshears on 3/21/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Application/Control Number: 10/669,215

Art Unit: 1712

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Buttner whose telephone number is 571-272-1084. The examiner can normally be reached on weekdays from 10 to 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski, can be reached on 571-272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
